

WARSZAWSKI UNIWERSYTET MEDYCZNY  
MEDICAL UNIVERSITY OF WARSAW

DZIEKAN  
WYDZIAŁU FARMACEUTYCZNEGO

Warsaw, 18.02.2020 r.

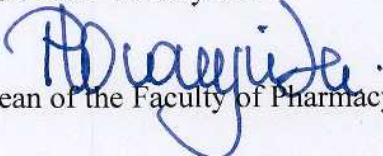

To Universities/Academic Institutions that it may concern

The Medical University of Warsaw, Poland has been engaged in education of pharmacists and researchers in the field of pharmaceutical sciences since 1926 when the Faculty of Pharmacy was established. Graduating several generations of well-educated pharmacists who have been worked in research and development as well as in healthcare system, the Faculty is recognized now as one of the leading academic centers in Poland.

The Faculty of Pharmacy at the Medical University of Warsaw working now to build up more international links and further academic collaborations with East and South Africa universities and academic institutions in order to support the education of pharmacy students and strengthen the competence skills of pharmacists. This process aims to facilitate pharmacists from above-mentioned regions to be a valuable and well-trained specialists in their native countries. For that purpose the Faculty of Pharmacy at the Medical University of Warsaw will appreciate opportunity to participate in the exchange of students from specified above regions (in the project called Edu-Pharm Africa), offering access to selected projects that could be carried out in our laboratories. The exchange will be realized under the Euro-SADC and Erasmus+ programs. The program for Africa has been initiated by the Medical University of Warsaw, Poland, thanks to good cooperation with Light for Africa Foundation based in Poland.

Details of the offer will be discussed with academic institutions that provide education in the field of pharmacy or medical sciences and will be based on further bilateral agreements.

Prof. Piotr Wroczyński

  
/Dean of the Faculty of Pharmacy/
